

List Builder

Grow your newsletter & email marketing audience effortlessly

With **Clikit Signatures** you can literally “make every email count”. Building a new, relevant and highly targeted database is as simple as doing what you do every day – sending email. Our **List Builder** service automatically captures every email address from emails you send and adds them to a database on the **Clikit Newsletter** platform.

List Builder automatically deletes duplicate email addresses leaving you with a clean, up to date database of qualified recipients.

Combined with the **Clikit Newsletter** platform, introduce prospects to newsletter and promotional campaigns using an opt-in introductory newsletter.

Benefits of List Builder:

- Saves time.
- Effortlessly and seamlessly integrates everyday email with your newsletter strategy.
- Organically grows your database.
- Lowers the risk of damaging brand reputation. No unsolicited emails.
- Keeps you connected to your customers at all times.

Did you know?

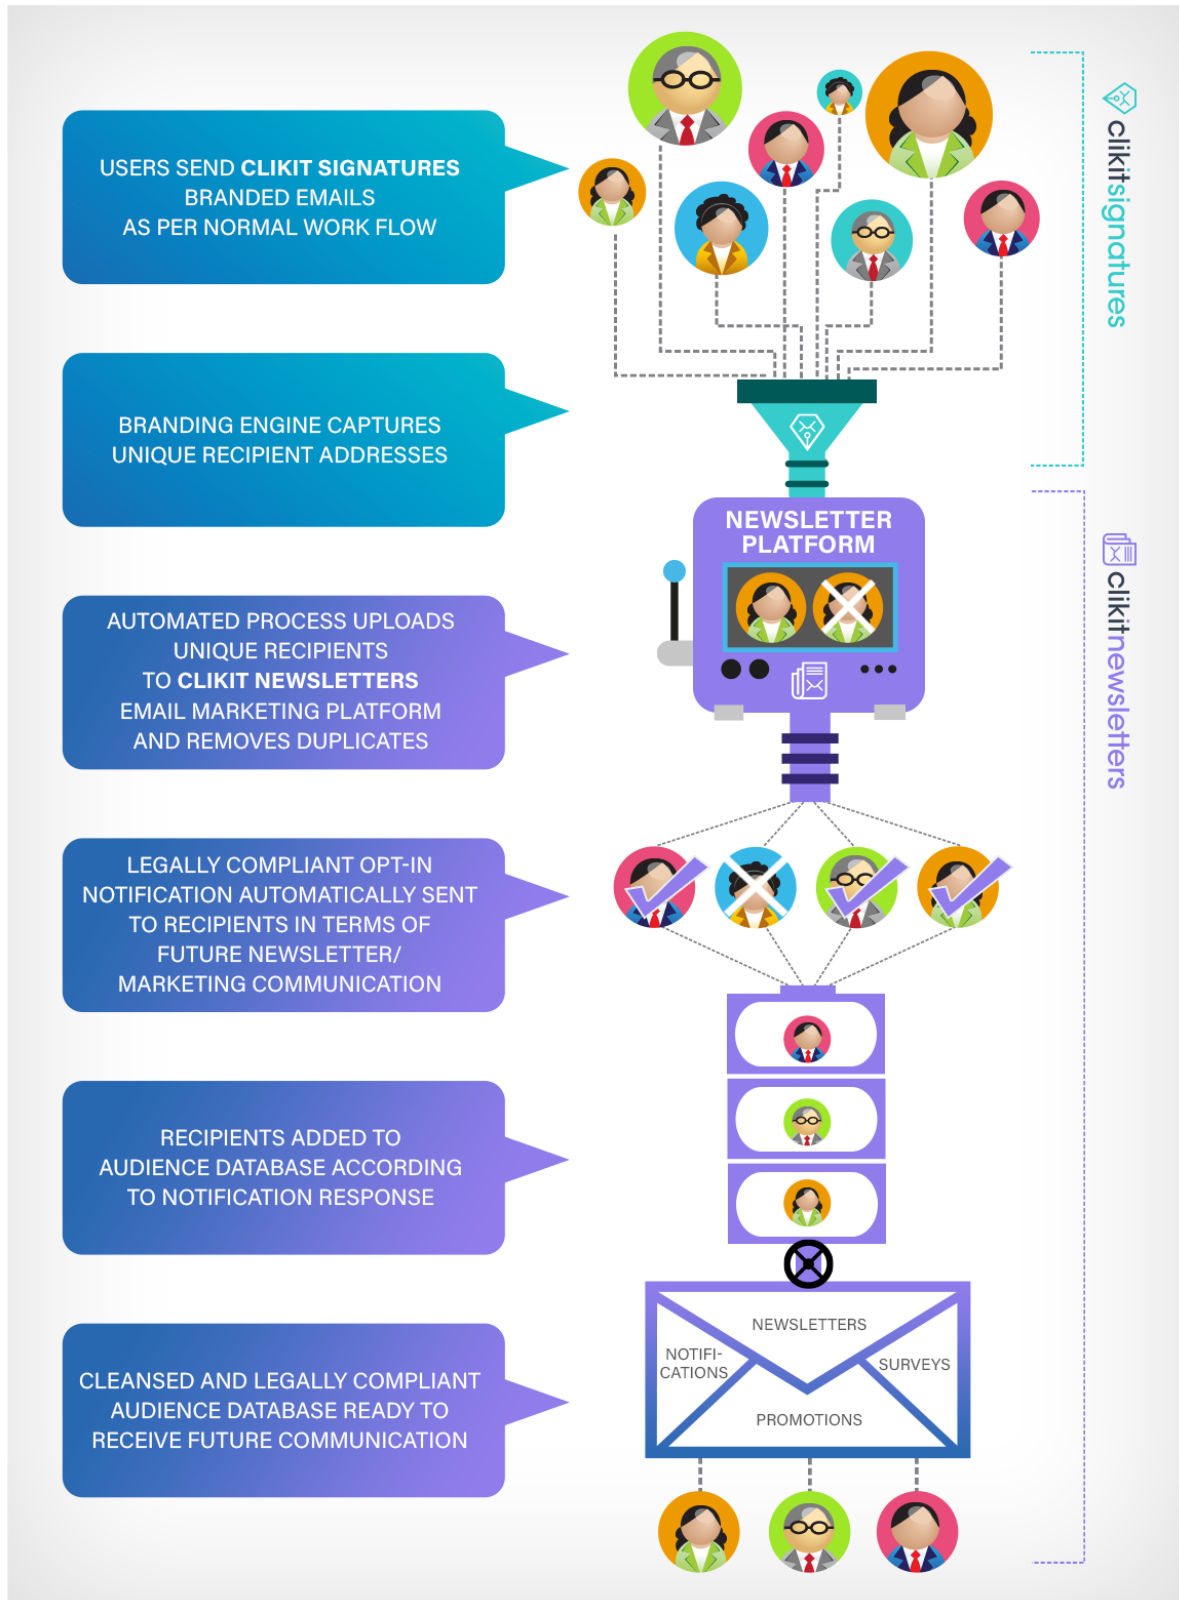

*The average email list churns by 30% every year. With **List Builder** you can ensure continued growth.*

We often underestimate the time and effort that goes into building highly qualified and targeted databases. Importing and exporting email addresses, duplication, collating and managing spreadsheets can be a cost and time intensive process.

#weknowemail

With **List Builder**, all you and your staff need to do is to continue doing what you already do every day – sending email. **List Builder** will silently and automatically build reputable, quality databases without the added effort.

HOW DOES LIST BUILDER WORK?
